○ Experience (September 2022 -Present)

Domain Specialist Engineer

Experience in telecom networking, with 4G and 5G data, &proficiency in troubleshooting network issues using HTTPS protocol and knowledge of the OSI model. Implemented and maintained network monitoring solutions leveraging Linux-based systems to proactively identify and mitigate potential issues.

Managed and optimized MySQL databases to handle vast volumes of Call Detail Records (CDRs) in a telecommunication environment.

Configured network devices and routers using SSH through Xshell, ensuring reliable connectivity and performance.

Managed IT service desk operations, including incident, change management and service request management, using ITSM tools.

Collaborated with development teams to debug and troubleshoot API issues identified during Postman testing.

○ Full Stack Devloper Training, Crio.do (May/2023 -Present)

- Developed and maintained responsive web applications using HTML5, CSS3, and JavaScript.
- Utilized CSS frameworks such as Bootstrap to streamline development and ensure consistency across projects.
- Integrated frontend components with backend APIs to deliver dynamic and interactive user experiences.
- Developed real-world projects and applications to apply theoretical knowledge to practical scenarios.
- Backend Devloper : JavaScript (Node.js), Databases: MongoDB, MySQL,Git, GitHub

○ Project_(<https://github.com/rwtMeghna/>)

Spotify Playlist Manager Web Application

- Developed a web application using HTML, CSS, JavaScript, and Spotify API to manage and organize Spotify playlists.

Ecommerce

- Developed a fully functional eCommerce website using React.js , Tailwindcss
- Implemented responsive design principles to ensure seamless user experience across desktop and mobile devices.

Qtrip_Dynamic

- Implemented responsive layouts and styles with CSS to ensure a seamless user experience across devices.
- Integrated React Router for client-side routing, enabling smooth navigation between different sections of the application without full page reloads.

Q_Kart

- Developed a comprehensive e-commerce platform called qkart using the MERN stack.
- Implemented user authentication features, including login and signup pages , Utilized MongoDB for database management,Integrated JWT (JSON Web Tokens) for secure user authentication and authorization.
- Conducted testing and debugging to identify and resolve issues, ensuring the stability and reliability of the application

○ Awards & Certifications

- Awarded for executing speedily and excellence to the AT&T IPTF MANA Project .
- SQL:ITM EDUTECH PVT.LTD IN NDSC CORPORATION
- PYTHON FUNDAMENTAL & PROGRAMMING:BY IT-ITES SECTOR COUNCIL NASSCOM IN COLLABORATION WITH INDUSTRY & APPROVED BY GOVERNMENT
- BHARAT SANCHAR NIGAM LIMITED(BSNL), GHAZIABAD:TELECOM TECHNOLGIES AND NETWORK TROUBLESHOOTING
